Introduction

Introduction

This manual provides, in an alphabetized format for each Illinois municipality,

- **taxable location codes** used to identify the city, town, village, or county for each sales location,
- **general merchandise rates** for figuring Retailers' Occupation Tax or Service Occupation Tax as reported on Form ST-1, Sales and Use Tax Return, and Form ST-2, Multiple-Site Form,
- **qualifying food, drug, and medical appliance* rates** for figuring Retailers' Occupation Tax or Service Occupation Tax as reported on Form ST-1, Sales and Use Tax Return, and Form ST-2, Multiple-Site Form, and
- **vehicle rates** for titled or registered items** ("titled or registered items" are referenced in this manual as "vehicles") for figuring Retailers' Occupation Tax or Use Tax as reported on Form ST-556, Sales Tax Transaction Return, or Form RUT-25, Use Tax Transaction Return. Please refer to the Reciprocal - Non-reciprocal Rate Reference Chart on Page 127 for "out-of-state" buyer rates.

Please note that several Illinois municipalities (listed under the heading "city/town/village") are located in more than one county. For example, the city of Aurora is located partially within the boundaries of DuPage, Kane, Kendall, and Will counties. Separate listings will appear for each portion of these multi-county municipalities. Some municipalities with identical or similar names are actually separate municipalities that are located in different counties. For example, the city of Wilmington is an incorporated municipality in Will County, whereas the village of Wilmington is an incorporated municipality in Greene County. For this reason, it is advisable to look at this manual carefully.

Location codes and corresponding tax rates for county governments are listed on Pages 93-97 of this manual. County sales tax rates apply when

- retail sales are made in an unincorporated area of a county.
- the Illinois address given for the titling or registration of a vehicle purchased outside Illinois is in an unincorporated area of a county.

The sales tax rates listed are combined rates and include state tax of 6.25 percent on general merchandise and 1 percent on qualifying food, drugs, and medical appliances. Also, depending upon the sales location, the rates may include combinations of one or more of the following locally imposed taxes collected by IDOR:

- mass transit tax
- water commission tax
- municipal home rule tax
- municipal non-home rule tax
- county home rule tax
- county public safety or transportation tax
- metro-east park and recreation district tax
- business district tax

Note: The sales tax rates listed in this manual are subject to change January 1 and July 1 of each year. See our web site for current tax rate information.

Madison County

The Madison County Metro-East Mass Transit District includes some — but not all — townships in Madison County. Therefore, the general merchandise rate, the qualifying food, drugs, and medical appliances rate, and the vehicle rate for items reported on Form ST-556 depend upon the township in which the taxable transaction takes place. If the taxable transaction takes place outside the municipal limits, refer to this township list for the correct tax rate. For vehicles reported on Form RUT-25, the vehicle’s registration address determines the rate. If the vehicle’s registration address is outside the municipal limits, use this township list for the correct rate.

Municipalities with Business Districts

The corporate authorities of certain municipalities have created a business district development or redevelopment plan, imposed a local business district sales tax, and identified the business addresses below as being included in the business district's boundaries. Business district tax does not apply to qualifying food, drugs, and medical appliances and items that are titled or registered with an agency of Illinois state government. Rates for this tax are included in the general merchandise rates listed for those addresses on this page that are within the business district. The rates for businesses that are outside of the business district are also listed below. The applicable combined sales tax rates, whether inside or outside the business district, are preprinted on Forms ST-1 and ST-2.

These rates are subject to change each January 1 and July 1.

- * Add 1.25 percent Chicago Home Rule Use Tax if vehicle is purchased from a dealer at this location and registered in Chicago.
- ** **Vehicle rate** - purchasers may be billed for additional use tax by their municipality or county.

Note: The Metro-East Mass Transit District imposes an additional fee of 0.50 percent or \$20, whichever is less, on vehicle sales for the MED townships in St. Clair County. The affected townships are listed on Page 99 of this publication. When applicable, we will print this fee (separate from the vehicle rate) on Form ST-556. For more information, see Informational Bulletin FY 2004-23.

Reciprocal Non-Reciprocal “Out-of-State” Vehicle Tax

Reciprocal - Non-Reciprocal Vehicle Tax Rate Chart as of July 2007

Non-residents may not claim the “out-of-state” buyer exemption (Section 5, Box A of Form ST-556, Sales Tax Transaction Return) on purchases of motor vehicles or trailers that will be titled in a state that does not give Illinois residents an “out-of-state” buyer exemption on their purchases in that state of motor vehicles or trailers that will be titled in Illinois (i.e., there is no reciprocal exemption).

The chart below lists each state. It shows whether or not you must collect tax if your purchaser is from that state and, if so, the rate that you must use to compute tax due. Rates are subject to change. The information appearing below is current as of the date on this chart. To see if this information has been updated, please refer to our web site. Reporting instructions are outlined in Informational Bulletins FY2005-13 and FY2006-11.
